Key skills

IT Software

I have an excellent knowledge and experience of software such as Microsoft Word, Excel and PowerPoint, but more importantly of creative software such as the Adobe Creative Suite. I have extensive experience using the Adobe Creative Suite for video editing (Premiere Pro), as well as creating authentic content such as graphics to post on social media (Photoshop).

Media law and regulation

As part of my Sports Journalism course I studied at Birmingham City University, I am trained in newswriting, media law and regulation.

Sports reporting

Through my studies and extracurricular activities, I have covered several sports from Football, American Football, Boxing, MMA etc. Being such a huge sports fan, I have a vast knowledge of all sports, and have created podcasts with my peers which individually focussed on professional football, and another that focussed on the treatment of college students who competed in American Football in the United States.
